K-12 Unified School Security

Senergy designs, deploys and services smart, unified security systems that tackle the core challenges schools face today—unauthorized access, physical assaults, vaping, swatting, weapons and more. Senergy's integrated systems allow school staff to receive alerts in real time, communicate and coordinate more efficiently, execute emergency procedures fluidly, and streamline operations across multiple buildings and campuses.

- ⬡ **Access Control**
- ⬡ **Video Surveillance Integration**
- ⬡ **Halo Smart Sensor** (*vape, aggression, gunshot*)
- ⬡ **RAVE Panic Button / Emergency Lockdown**
- ⬡ **Hybrid Cloud Options**
- ⬡ **Video Monitoring**
- ⬡ **Weapons Detection - Interior & Exterior**

SENERGY
Enterprise Security Experts

Let's Build a Safer School Together

Whether it's new construction or updating a legacy system, we partner with school leaders, IT teams, SROs and law enforcement when designing security solutions that seamlessly integrate access control, video surveillance, emergency lockdown, weapons detection and more.

Unified - Manageable Responsive - Scalable

We customize non-proprietary, open-architecture school security systems that streamline core operational procedures, simplify manageability, optimize communications, accelerate response times, and allow for more cost effective future scalability.

Our field service and technical support continue long after deployment, as well as training and advisement. We are committed to helping you achieve your goals.
